

About Pink Weddings™

To date, we have arranged over 3000 same-sex weddings all over the world.

We have grown from strength to strength over the last 7 years, making Pink Weddings a market leader in the Gay Wedding Market.

We offer choice to couples without them experiencing stress, concern or embarrassment when finding a venue and or vendor that is honestly gay friendly.

Our mission is to provide services and accurate information that ultimately leads to a happy day for couples throughout the world.

As a social enterprise, we're not just about commercial; part of our aim is to further social acceptance for gay families. We raise awareness and dispel myths in society, governments and media surrounding gay life.

The team continually face homophobia, acceptance issues with some vendors and venues. Even in today's world, stereotyped perceptions still make it difficult to get a hotel to say yes or a florist to sell flowers.

Do you apply?

We believe in equality and inclusivity. We will not allow couples to be singled out for being gay so we only promote, recommend and work with others who respect same-sex couples and wish to serve them equally.

If you want to show couples you have great services and products and will not make them feel bad and not just say it, then the best way for you is to form a working partnership with Pink Weddings, a company that knows how to take care of all the finer details and promotes equality.
